

Arjun Nair

arjun.nair@email.com | +1-972-555-1212 | Dallas, TX

PROFESSIONAL SUMMARY

AI/ML Engineer focused on LLMs and Generative AI. 3 years of experience building production RAG systems, fine-tuning language models, and deploying AI applications. Contributor to LangChain open-source.

SKILLS

LLM: LangChain, LangGraph, LlamaIndex, OpenAI API, Groq, Anthropic Claude API

ML Frameworks: PyTorch, Hugging Face Transformers, PEFT/LoRA, vLLM

Vector Stores: ChromaDB, Pinecone, Weaviate, FAISS

Languages: Python, TypeScript, SQL

Cloud: AWS (Bedrock, SageMaker), GCP (Vertex AI)

Tools: FastAPI, Streamlit, Docker, Git, Weights & Biases

EXPERIENCE

AI Engineer -- Accenture Applied Intelligence, Dallas, TX (2023 - Present)

- * Built enterprise RAG system for legal document search -- reduced lawyer research time by 60%
- * Fine-tuned Mistral-7B with LoRA for domain-specific classification (F1: 0.92)
- * Designed multi-agent orchestration pipeline with LangGraph for automated report generation
- * Open-source contributor to LangChain -- 3 merged PRs, 45 GitHub stars on personal extension

Machine Learning Engineer -- Infosys, Hyderabad -> Dallas, TX (2021 - 2022)

- * Deployed NLP sentiment analysis pipeline on AWS SageMaker (10k requests/day)
- * Built recommendation engine for e-commerce client -- 14% uplift in conversion

EDUCATION

M.S. Artificial Intelligence -- University of Texas at Dallas, 2021
